

Wael El-Dabah

Teaching Assistant Candidate | Cybersecurity & Software Engineering

Cairo, Egypt | +20 109 594 8265 | wael.eldabah1@gmail.com | LinkedIn | GitHub

PROFILE

Software Engineering graduate (Very Good) with experience teaching Python and cybersecurity, mentoring learners in hands-on technical activities, and developing applied security projects. Seeking academic teaching and research opportunities in cybersecurity and secure software engineering; planning postgraduate research in the field.

EDUCATION

B.Sc. in Software Engineering | Assiut National University, Faculty of Computers & Artificial Intelligence | 2022 - 2026

Overall grade: Very Good | Graduation project: EyeGuard (Excellent)

TEACHING & MENTORING EXPERIENCE

Cyber Security Instructor | Udacity | Dec 2024 - Mar 2025

- Delivered cybersecurity training, guided practical exercises, mentored learners, and evaluated technical progress.

Programming Instructor | Almentor | Sep 2024 - Dec 2024

- Taught Python programming through coding, debugging and structured problem-solving exercises.

Cyber Security Community Instructor | Google Developer Student Club

- Conducted sessions on introductory cybersecurity and penetration testing; supported hands-on security learning.

RESEARCH INTERESTS

Secure software engineering; application security and vulnerability analysis; AI/ML for cybersecurity; network security; threat detection and applied offensive security.

SELECTED ACADEMIC & RESEARCH PROJECTS

EyeGuard | AI-Driven Network Detection & Response | Graduation Project (Excellent)

- Designed a passive network threat detection research platform combining packet analysis, machine-learning approaches and threat-intelligence enrichment.
- Experimented with Isolation Forest, LightGBM, Random Forest, XGBoost and datasets including CICIDS, NSL-KDD, UNSW-NB15 and CIC-IDS2017.
- Worked with Python, Scapy, PyShark and CTI APIs; explored an expanded detection-and-response roadmap.

Other Academic Exposure

- Software engineering, Linux operating systems, software security, database systems, AI and data science coursework/projects.

SECURITY INDUSTRY EXPERIENCE

Cyber Security Intern | IGRC Square | Jul 2025 - Dec 2025

- Supported web application penetration testing, mobile security testing, and network security assessments under senior supervision.
- Conducted vulnerability analysis and secure code reviews; documented reproducible evidence, impact, and remediation recommendations.
- Participated in technical discussions and communication of findings alongside senior consultants.

TEACHING & TECHNICAL SKILLS

Instruction: Python programming, cybersecurity fundamentals, lab facilitation, mentoring, assessment and feedback.

Security: Web/network security testing, secure code review, vulnerability assessment, threat detection concepts.

Technology: Python, C#, C/C++, Java, Linux, Git/GitHub, Burp Suite, Nmap, Wireshark, Scapy, PyShark.

CERTIFICATIONS & TRAINING

eJPT (Junior Penetration Tester) - Earned

HCIA-Security - Earned

Certified Ethical Hacker (CEH) preparation - NTI training

HONORS & RECOGNITION

4th nationwide - Digitopia Cybersecurity Competition (EyeGuard).

Best Team Leader - Digital Egypt Pioneers Initiative (DEPI); recognition by the Minister of Communications.
