

Wael El-Dabah

Offensive Security Engineer | Penetration Testing & Application Security

Cairo, Egypt | +20 109 594 8265 | wael.eldabah1@gmail.com | LinkedIn | GitHub

PROFILE

Cybersecurity practitioner and Software Engineering graduate with hands-on experience in web, mobile and network security testing, vulnerability assessment, secure code review, and client-facing technical reporting. Built EyeGuard, a research-oriented AI-powered network detection platform. Focused on practical offensive security and application security.

TECHNICAL SKILLS

Offensive security: Web, mobile (Android/iOS) and network penetration testing; vulnerability validation; OWASP Top 10; secure code review; reporting and remediation.

Tools: Burp Suite, Nmap, Wireshark, Metasploit, Kali Linux, Scapy, PyShark, Git/GitHub.

Engineering: Python, C#, C/C++, Java; Linux, Windows; security-oriented software development.

EXPERIENCE

Cyber Security Intern | IGRC Square | Jul 2025 - Dec 2025

- Supported web application penetration testing, mobile security testing, and network security assessments under senior supervision.
- Conducted vulnerability analysis and secure code reviews; documented reproducible evidence, impact, and remediation recommendations.
- Participated in technical discussions and communication of findings alongside senior consultants.

Cyber Security Instructor | Udacity | Dec 2024 - Mar 2025

- Delivered cybersecurity training, guided practical exercises, mentored learners, and evaluated technical progress.

Programming Instructor | Almentor | Sep 2024 - Dec 2024

- Taught Python programming through coding, debugging and structured problem-solving exercises.

SELECTED PROJECT

EyeGuard | AI-Driven Network Detection & Response | Graduation / Digitopia Project

- Engineered a passive network analysis research prototype using Python, Scapy and PyShark for traffic capture and feature extraction.
- Explored anomaly and attack classification with Isolation Forest, LightGBM, Random Forest and XGBoost across public security datasets.
- Integrated threat-intelligence enrichment concepts with VirusTotal, AlienVault OTX, AbuseIPDB, Shodan and MXToolbox.

EDUCATION

B.Sc. in Software Engineering | Assiut National University, Faculty of Computers & Artificial Intelligence | 2022 - 2026

Overall grade: Very Good | Graduation project: EyeGuard (Excellent)

CERTIFICATIONS & TRAINING

eJPT (Junior Penetration Tester) - Earned

HCIA-Security - Earned

Certified Ethical Hacker (CEH) preparation - NTI training

ACHIEVEMENTS

4th nationwide - Digitopia Cybersecurity Competition (EyeGuard).

Best Team Leader - Digital Egypt Pioneers Initiative (DEPI); recognition by the Minister of Communications.
